

LEPA 
Aim for excellence

G1800

The Extreme Gaming Power Giant

- Both 80 PLUS Gold and 80 PLUS 230V EU Gold certified

- Powerful 1800W fully rated output, peak power up to 1900W

- Six powerful +12V rails with high maximum loads offer great compatibility with heavy-duty graphics cards

- 135mm 2-ball bearing fan with max. 3100 RPM

- 1800W powerful output within 180mm chassis (1800W @230V; 1600W @115V)

- Patented **Turbo switch** design to make the fan to spin at full speed

Patented Turbo switch design

The patented turbo cooling design will help cool the critical components of the PSU by 10-15°C through simply pressing the **Turbo switch** to create the extra massive airflow.

Addressable dual-ring
RGB fans

Glamorous mirror-finish
RGB waterblock

RGB control box

Dual-ring design

- Glamorous mirror-finish RGB waterblock creates boundless visual enjoyment
- Support latest addressable RGB header motherboards
- Modular wired RGB control creates incredible illumination
- RGB control box allows users to adjust preferred lighting effects on RGB waterblock and fans

- Stunning addressable RGB lighting effects with dual-ring design
- User-friendly remote control for easy lighting adjustment
- Shockproof rubber pads minimize vibration during operation

Remote control

RAM compatibility

HDT

- Stunning addressable RGB lighting effects
- User-friendly remote control for easy lighting adjustment
- Slim structure for superb RAM compatibility
- 4 x φ6mm high performance heat pipes
- Dual convex blades fan boosts downforce air pressure and creates high-volume airflow
- HDT (Heat-pipe Direct Touch) improves thermal conductivity
